RAPID FIRE

Description :

RAPID FIRE is an exciting tech quiz event where participants—individually or in teams — face a series of quick-fire questions based on technology and computer science. The event is conducted offline. It follows a Kahoot-style format, where speed and accuracy are the keys to victory!

Rules:

- The event can be played individually or in teams (maximum 2 members).
- Questions will be based on technology, computers, and general IT knowledge.
- The quiz will be conducted offline using a digital format.
- Each question will have a time limit — faster responses earn higher scores.
- No use of external tools or application, or external help during the quiz.
- In case of a tie, a tie-breaker round will decide the winner.

Judging Criteria:

- Accuracy of Answers: Points are awarded only for correct responses.
- Speed of Response: Faster answers earn higher scores.
- Consistency Across All Rounds: Stable performance in every round improves the chances of winning.
